To,
The Head of Department,
Computer Science & Engineering,
AIT, Chikmagalur

Sub: Feedback on the Add-On course we conducted for the students of CS&E

Respected Madam,

With reference to the above subject, we are happy to have conducted the add-on course in the Department of Computer Science & Engineering on Advances in Android Application Development and Machine Learning.

First thing I have to say, the commitment of the students towards the add-on course was wonderful, that too in their vacation period. We could clearly see the urge in the students to learn new technologies and practical applications of those technologies. This helped us to conduct the course in a proactive manner. The attendance of the students throughout the course was overwhelming which showed their unconditional interest in the proceedings. It was a nice experience for us too, we always feel it interesting to communicate with the students with an urge to learn.

I would like to thank you ma'am on behalf of Capulus Technologies for the opportunity and support provided to us during the course. I would also like to thank the co-ordinators of the course Dr.Taranath N.L, Associate Professor, CS&E and Mr. Darshan L.M, Assistant Professor, CS&E for their support. We hope the add-on course was useful for the students and has achieved its intended outcome.

Yours' Faithfully
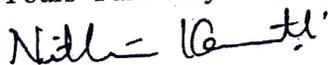

(Nithin Kamath)
Executive Director
Capulus Technologies Private Limited

About Capulus Technologies
Capulus Technologies is a Private Limited Software Firm helping companies, industries, institutions and government manage complexities in their operations by providing them smart technology solutions. Since founding, Capulus Technologies has always believed in the highest level of integrity, followed a people-oriented approach, and given back to the society whenever possible. Capulus Technologies will continue to follow the principle of "client first" in providing reliable and highly effective services. Our practical knowledge and rich experiences allow us to provide comprehensive I.T services to our clients spread across various sectors starting from small businesses to various Government departments.
Capulus Technologies Private Limited is the company which developed the official app of Karnataka State Police which has been implemented state-wide across Karnataka.
The Company has wide experience in developing software applications according to the needs of the clients. The team has good domain expertise and have provided software solutions for various Government Departments as well as Private Companies. The company is recognized by Central Government under StartUp India initiative and has received a Certificate of Recognition.
