E-GOVERNANCE POLICY

AIT e-governance envisages with the sole vision of enhancing the efficiency of the governance system for the development of the institute by leveraging innovative and cutting-edge technologies. The broad areas of e-governance are examinations, admissions, day-to-day operations of departments, academics, placements, management information systems and stakeholder inclusion in a staged manner. Having a dedicated policy for e-governance will aim at planning and facilitating any infrastructure for the deployment of innovative technologies, which in turn favours the seamless administration of the institute.

Vision:

Enhance the efficiency of the system of governance for the overall development of the institute by leveraging technologies.

Mission:

Deploy new solutions and methodologies in various departments of the institute for seamless data access and to enable better decision-making.

Objectives:

1. Implementation of e-governance for various functions of the institution.
2. Achieving efficiency in our functionality.
3. Promoting transparency and accountability.
4. Achieving paperless administration of the institution.
5. Facilitating online internal and external communication between various entities of the institution
6. Providing easy and secured access to information.
7. To maintain the data in a secure environment.
8. Improving the institute's stature globally.
