POLICY DOCUMENT

ON

GREEN CAMPUS INITIATIVES

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

College environmental aims and objectives

The college is striving to develop its institution on a self – sustainable basis in the areas of power, water and cleanliness. We intend to pursue a programme of continuous improvement in our procedures, practices and review the policy on a regular basis to evaluate continued relevance and to monitor compliance.

Vision

AIT Vision is to create awareness among young students and public about various environment related problems and conservation of Nature and natural resources in the surrounding area and educating on how to live Eco-friendly.

Mission

- To help students take small steps in saving the environment.
- To help the students understand each individual's responsibility to take an initiative to save the environment.
- To bring awareness among the students about the hazards spoiling the environment.
