ADICHUNCHANAGIRI INSTITUTE OF TECHNOLOGY

(Affiliated to VTU, Belagavi | Approved by AICTE, New Delhi | Recognized by Govt. of Karnataka)

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

CHIKKAMAGALURU - 577 102

(Accredited by NBA and NAAC)

Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

Teaching Learning ICT:

Integrating ICT (Information and Communication Technology) tools in the classroom greatly enhance learning experiences. Here are some effective tools and their applications:

Learning Management Systems (LMS): Platforms like Google Classroom and DHI enable teachers to organize course materials, assignments, and facilitate communication with students.

Video Conferencing Tools: Tool like Google meet is used which support remote learning and enable virtual classrooms, guest lectures, and collaboration between students

Online Resources and Databases: Websites like YouTube channels are used which provide supplementary materials for students to learn at their own pace

Projector: These allow teachers to present lessons on screen, engaging students through multimedia content and interactive exercises

Incorporating these tools thoughtfully can create a more engaging and effective learning environment!

22/6/2024

Various technical events were organized for students on 22/6/2024 on the occasion of e-manthana to improve the technical skills of students which are listed below

Debugging event: where students were given some code with bug which they were supposed to crack

Treasure hunt: where the students were given clue to find the components which were hidden at different location and they were supposed to collect all the components and create a circuit to turn on a led

Brain Brawl: where the group of students was involved in solving different situational questions
