1.5 Activity conducted in the collage:

Students from the 5th Semester of Electronic and communication Engineering at Adichunchanagiri institute of technology participated in a Swachh Bharat Abhiyan initiative. This national-level campaign, initiated by the Government of India, aims to promote cleanliness and hygiene.

Fig.1.2 Swachh Bharath Abhiyan for the NSS activity

The students in Beekanahalli, where they actively contributed to the Swachh Bharat mission. During this campaign, they engaged in activities such as waste management, cleanliness drives, and awareness programs to promote a cleaner environment. Their efforts aligned with the vision of a cleaner and healthier India.

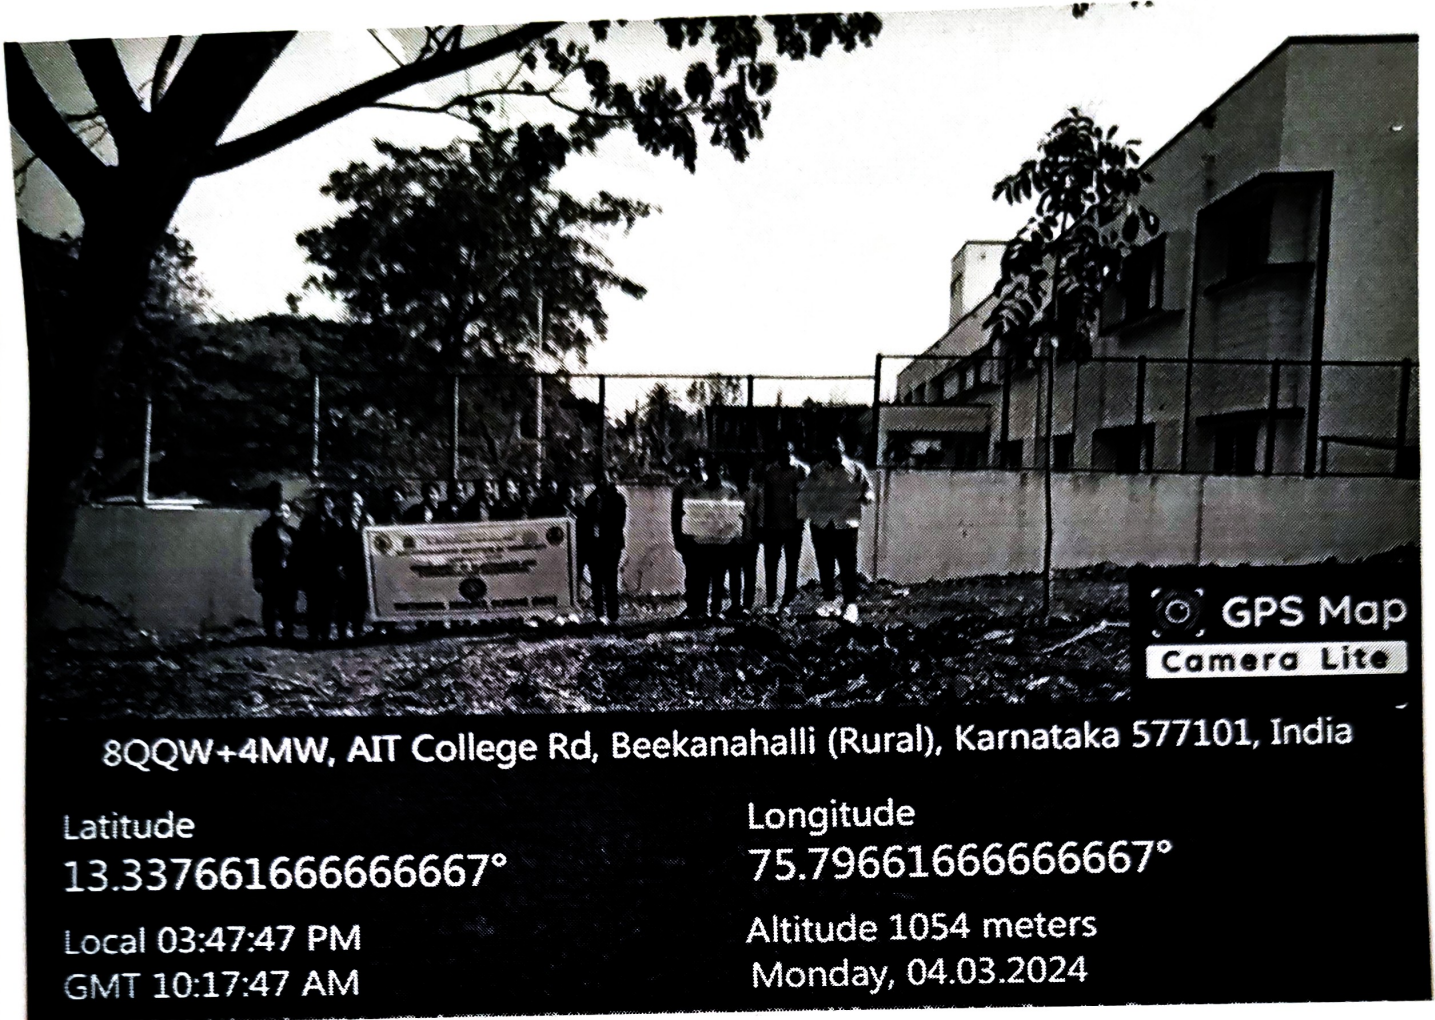

Fig .1.2. Swachh Bharath Abhiyan near BCWD girl's hostel

It was also followed by the students from college and department. Youths of the collage involved in the daily routine jobs and other business activities also participated in the event. All the activities done by students and youths of the country supported and encouraged common public to get involved in the campaign very actively. We as an Indian citizen just need to pick up the broom in our hand and clean all the dirty places in our surroundings to make them clean and neat. This endeavour reflects the commitment of educational institutions and students toward building a more sustainable and hygienic society. It has become a people's movement that embodies collective responsibility and pride in building a cleaner, healthier India. Participating in Swachh Bharat Abhiyan (Clean India Mission) within the college context yields multifaceted outcomes that extend beyond mere cleanliness. In this comprehensive exploration, I delve into the profound impact of Swachh Bharat Abhiyan on college campuses, emphasizing its significance, benefits, and transformative potential.

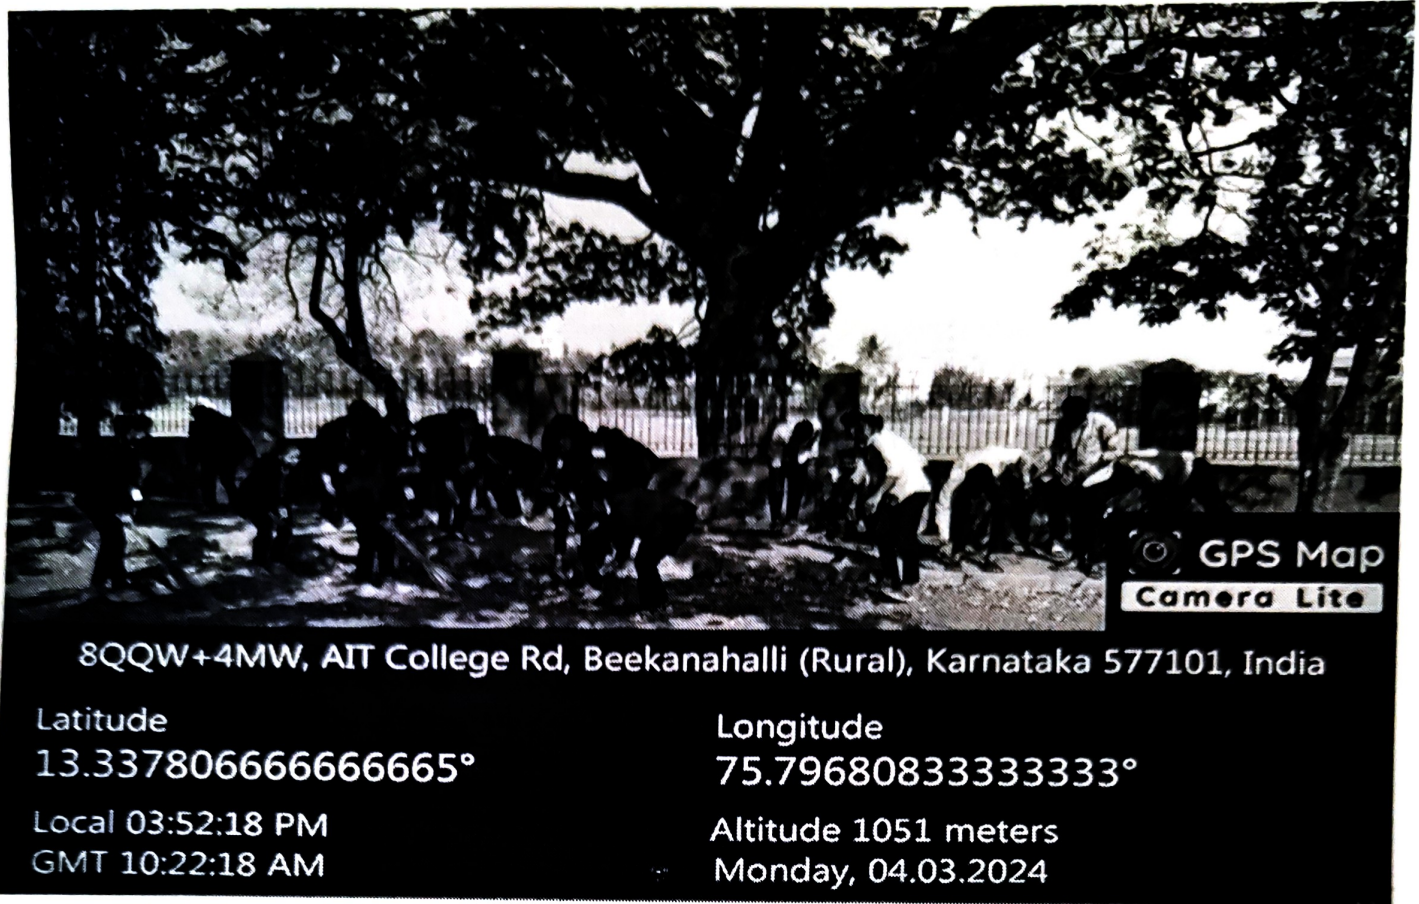

Fig.1.3. Swachh Bharat Abhiyan near AIT collage road

Swachh Bharat Abhiyan emphasized that cleanliness is not the sole responsibility of municipal bodies or government agencies. It is collective endeavour that involves every citizen. The campaign instilled a sense of ownership, urging individuals to actively participate in maintaining a clean environment

1.6 Outcome of participating in the Swachh Bharat Abhiyan:

- **Heightened Awareness:** Engaging in Swachh Bharat Abhiyan cultivates a heightened awareness of sanitation, hygiene, and waste management. Students become conscious of their surroundings, recognizing the need for cleanliness.
- **Waste Management:** Active participation in cleanliness drives leads to effective waste management. Students learn to segregate waste, promoting recycling and reducing landfill burden.
- **Sanitation Facilities:** Swachh Bharat Abhiyan ensures access to proper sanitation facilities within colleges. Clean restrooms, safe drinking water, and waste disposal systems positively impact students' health.

22.6.24	<p style="text-align: center;">PLANNING</p> <p>Activity-4: As water is very important, so we have planned to visit a random house in Beekanahalli and tell them the importance of rain water harvesting so they can store rain water and use those water for household purpose.</p>	
22.6.24	<p style="text-align: center;">PLANNING</p> <p>Activity-5: We planned to go for Grama Panchayat of Beekanahalli and then to meet PDO of that village. To discuss some of the farming techniques to increase income of the village. We also planned to discuss and collect some of the information of the Government schemes to enhance the village income.</p>	
22.6.24	<p>Activity-6: We also planned to teach them how to create gmail account , and to tell them some ideas for getting good results. Like this we planned for the 6th Activity i.e., Helping local schools to achieve good results and enhance their enrollment in higher / technical / vocational / education.</p>	
26.6.24	<p>We collected the information and then proposed a scheme to the PDO, to enhance the village income. The scheme is Pradhan Mantri Fasal Bima Yojana (PMFBY) and much more. Like this we had planned and prepared for the 5th Activity i.e., Preparing an actionable business proposal for enhancing the village income and approach for implementation. We proposed the scheme to the PDO of the Hampapura, like this we planned and completed the activity-5</p>	

26.6.24	We took the permission of the Principal of Government school at Hampapura. Then we prepared ourselves for teaching the students about educational values.	
26.6.24	We also teach them how to create gmail account , and to tell them some ideas for getting good results. Like this we planned for the 6th activity i.e., Helping local schools to achieve good results and enhance their enrollment in higher / technical / vocational / education.	
12.7.24	We executed some ideas to conserve water, like Rain water harvesting and etc, like this we had completed to do the 4 th activity i.e., Water conservation.

ACTIVITY:01
ORGANIC FARMING INDIAN AGRICULTURE
CONNECTIVITY FOR MARKETING

Introduction:

Organic farming, an agricultural system that uses ecologically based pest controls and biological fertilizers derived largely from animal and plant wastes and nitrogen-fixing cover crops. Modern organic farming was developed as a response to the environmental harm caused by the use of chemical pesticides and synthetic fertilizers in conventional agriculture, and it has numerous ecological benefits. Compared with conventional agriculture, organic farming uses fewer pesticides, reduces soil erosion, decreases nitrate leaching into groundwater and surface water, and recycles animal wastes back into the farm. These benefits are counterbalanced by higher food costs for consumers and generally lower yields. These benefits are counterbalanced by higher food costs for consumers and generally lower yields. Indeed, yields of organic crops have been found to be about 25 percent lower overall than conventionally grown crops, although this can vary considerably depending upon the type of crop. The challenge for future organic agriculture will be to maintain its environmental benefits, increase yields, and reduce prices while meeting the challenges of climate change an increasing world population.
